

Chapter 4 - Seatwork 1

1. Try to remember the birthdays of all the members of your family and closest friends. How many can you remember? Then try to describe the image/graphic of the latest app you downloaded.

I remember 10, the image/graphic of the latest app that I downloaded is color green and circle like shape with black stripes.

2. Is it okay to use phone while driving?

Yes and No.

Yes, because it is permissible to use a hands-free device, such as speaker phones, headphones, microphones, or other similar equipment, to make and receive calls without having to hold one's mobile communications device.

No, because the usage of cell phones, in particular, is a major issue. Using a cell phone while driving, whether hands-free or not, increases the risk of an accident by four times. A text message pulls your eyes from the road for five seconds when you send or read it.
